

# CAD-CUT® Soft Foam

## Upgrade Your Apparel with this Specialty HTV

We've created a new category of HTV unlike anything you've seen on the market. Introducing CAD-CUT® Soft Foam—a dimensional material perfect for creating stand-out designs for a variety of apparel, like today's popular T-shirts and hoodies. This thicker vinyl features a smooth, suede-like texture and an ultra-matte finish your customers will love.

### UNIQUE DIMENSIONAL EFFECT

With a thickness of almost .60mm (600 microns), this specialty HTV adds a raised look and feel to any item it's applied to. We recommend creating mid to larger-sized designs, perfect for premium looks for everyday fashion, spirit wear, athletics, and more. With a nice touch and texture, Soft Foam is perfect for adding a dimensional effect with only your heat press.

### SOFT & PLIABLE

Soft Foam has a smooth, buttery soft texture similar to craft foam sheets. With the right blade and force, you can easily cut designs that weed like a breeze. This quality material is flexible and won't crack or peel when heat applied to cotton, polyester, and select performance materials.

#### GREAT FOR:

- Fashion, spirit wear, & athletics
- Adding a unique, dimensional effect
- Standard placements & graphics
