We've done our best to represent these colors accurately, however, the color calibration of computer monitors can vary considerably. Please note due to CAD-PRINTZ® material variances (ex: Solutions™ Opaque vs. Express Print) colors may appear differently between materials. If color accuracy or matching is key to your decision, you may want to contact our customer service center at 800-521-9702 (US) or 800.521.5255 (Canada).
