

FlexStyle® By Stahls'®

Emblems with texture, detail, and color like no other – all you need is a heat press.

GREAT FOR:

- A luxury, premium finish
- Quick on-demand application
- More detail than embroidery with unlimited digital colors

The latest emblem technology gives high detail to color and textures for a vibrant look. Elevate any apparel or accessory application to premium level with an endless number of design possibilities and applications.

EMBROIDERY ALTERNATIVE

Flexstyle® emblems offer a premium alternative to embroidery, with higher perceived value and the ability to add more colors without sacrificing detail. Logos won't pucker from stitches pulling, and the final finish is less bulky on apparel.

QUICK APPLICATION

Because application is quick, just a simple hit with a heat press, you're able to apply on demand for quick turn around with no need to stock inventory.
