WHY INVEST IN A PRINT-CUT MACHINE?

- Offer a more complete menu of services including on demand personalization
- Generate additional business from your existing customer base
- Attract new customers
- Save money by bringing production in-house
- Increase profits by eliminating additional expenses

WHAT CAN YOU CREATE WITH A PRINT-CUT MACHINE?

Here are a few ideas on what you can create:

- | | | | |
|-------------------------|--|---------------|---------------|
| • Banners | • View-thru graphics | • Fanny Packs | • Shoes |
| • Signs | • Pictures printed onto a satin canvas | • Back Packs | • Umbrellas |
| • Full colour transfers | • Posters | • Portfolios | • Travel mugs |
| • Window Cling | • Cap transfers | • Mousepads | • Can coolers |
| • Wall Graphics | • Carry bags | • Jackets | • Apparel |
| • Laminated Decals | • Table Skirts | • Gloves | |
| • Bumper Stickers | • Tents | • Blankets | |
| • Equipment wraps | | • Towels | |

THINGS TO CONSIDER...

Budget

Consider purchasing the biggest machine you can afford right out of the gate so you don't run into capacity issues and have regrets about size restrictions.

Space Limitations

Ensure that you have floor space required for the size of the printer/cutter that you would like to purchase.

Machine Width

Decide what you plan to do with your print/cut machine. ie. banners, vehicle wraps, posters, signage, etc...

Ink Configuration

4 colour ink only vs. metallic or white or Light Cyan, Light Magenta, Light Black. These will provide improved image and grayscale qualities and/or offer metallic and pearlescent effects.

Financing available. Get an instant quote online today!

VersaStudio® BN
BN-20

VersaStudio BN-20 Eco-Solvent Desktop Printer/Cutter offers durable printing, contour cutting, metallic ink and white ink options. This powerful device brings increased profitability with its ability to print and cut a variety of different jobs on a broad range of media. Automatic contour cutting eliminates the need for reloading/repositioning. Includes VersaWorks® and R-Works software. The BN-20 is an affordable, user-friendly option for desktop printing/cutting. Perfect for any start-up business or can be used as a back-up to compliment your current operations. Great for a variety of different printing jobs including apparel heat transfers and small signs. Visit: stahls.ca/roland-xr640-print-cut for more information

VersaCAMM® SPi Series
SP-300i/SP-540i

VersaCAMM SPi Series is the industry's most versatile entry-level production tool, combining four-colour printing and contour cutting in one device with VersaCAMM SP-300i and SP-540i being its best sellers. This series delivers high quality, durable four-colour (CMYK) indoor and outdoor graphics on uncoated media at a competitive price and prints speeds up to 50% faster than previous models (in standard print mode). Featuring automated maintenance, superior media handling, and ethernet connectivity, Roland SPi series is a great choice. Roland SPi series now includes an integrated media heating system, and intelligent pass control for improved print speeds with virtually no banding. Visit: stahls.ca/roland-spi-print-cut for more information

VersaCAMM® VSi Series
VS-300i/VS-540i/VS-640i

The VersaCAMM VSi Series offers improved capabilities and enhancements to the original VersaCAMM® series in addition the ones that users have come to love. Known for its quality eco-solvent ink, integrated contour cutting, ease of use, versatility and dependability, the VSi series also comes equipped with the latest print head technology, faster drying GREENGUARD Gold certified Eco-Sol® MAX 2 inks in CMYKLCm, metallic, light black and high opacity white, as well as PANTONE® colour matching. The VersaCAMM VSi series is great for a variety of different printing jobs including apparel heat transfers, producing signs, banners, vehicle graphics and wraps, fine art posters, labels, decals, POP displays, and more. Visit: stahls.ca/roland-versacamm-printer-cutter-vsi for more information

SOLJET® Pro 4
XR-640

SOLJET Pro 4 XR-640 High-Performance Eco-Solvent Printer/Cutter is Roland's leader in printing quality, precision, and performance. It has improved image quality and productivity with its dual inline, mirrored printheads, state-of-the-art printing and contour-cutting technology, as well as advanced, environmentally friendly Eco-Sol MAX 2 inks. The Pro 4 XR-640 has a broad colour gamut which is made possible through its 7 or 8-colour ink configurations, the use of specialty inks including light black for better production of gray colour gradations, metallic silver, and high-density white for increased opacity. With its ability to print high quality images at speeds of up to 528 sqft/hr, the Pro 4 is Roland's most powerful and versatile wide-format printer/cutter. VersaWorks™ RIP software:

VersaWorks™ RIP software was developed exclusively for Roland devices in order to get the most out of their capabilities. It includes productivity tools such as Variable Data Printing, support for up to four Roland devices simultaneously, ink usage and print time estimation, PerfCut for precision perforated cut lines, and PANTONE® spot colour libraries for accurately reproducing spot colours. With its easy-to-use interface, VersaWorks allows users at all levels to efficiently operate Roland printers and printer/cutters while taking full advantage of their features.

What is Eco-Sol MAX® Ink?

Eco-Sol MAX® is an odorless mild solvent ink that enhances the performance of Roland inkjets through improved scratch resistance, faster drying time, higher density and a wide colour range on both coated and uncoated media. It has a durability of up to three years without lamination. Eco-Sol Max® comes available in Cyan, Magenta, Yellow, Black, Light Cyan, Light Magenta, Metallic Silver and White, on qualified devices.

What is Eco-Sol MAX 2 Ink?

Eco-Sol MAX 2 is an advanced high-density ink that provides a broader colour range with a high colour vibrancy even at fast speeds. It comes available in CMYK for the XF-640, or CMYKLcLm plus greater opacity White, brilliant Metallic Silver and new Light Black for the XR-640 and VSi series.
