

# CAD-CUT® UV Shift

## Color Changing Heat Transfer Vinyl

CAD-CUT® UV Shift is a color changing HTV that is matte white before color activates in UV or sunlight. This material provides a remarkable finish that demands attention on any apparel. Perfect for T-shirts, hoodies, and youth garments, UV Shift features fast application and is easy to cut, weed, and apply.

### GREAT FOR:

- T-shirts, hoodies, & children's apparel
- Unique designs & placements
- Special effect finish

## SOLAR REACTIVE HTV

Take creative custom apparel to the next level with a color changing HTV that transforms in light. UV Shift appears white until one of 4 vibrant colors is activated by sunlight or ultraviolet light. Colors appear like magic with this distinctive, eye-catching material.

## LET YOUR DESIGNS SHINE

CAD-CUT® UV Shift is a must have for one of a kind apparel decoration. Get creative with fun designs, unique placements, and a stunning effect that will wow customers. It's so easy to offer trendy looks and vivid finishes with UV Shift. This material can expand your brand and draw attention to your business!

- ✓ High quality, durable HTV
- ✓ Stand out, special effect finish
- ✓ Matte finish & Soft Hand
- ✓ Fast application & hot peel
- ✓ Easy to cut, weed, & apply
