

# CAD-CUT® Chroma-TWILL™

## Dazzling Designs with Traditional Twill Texture

Offer your customers premium apparel with only a heat press! CAD-CUT® Chroma-TWILL™ allows you to create eye-catching designs with the feel of woven fabric, without using any embroidery equipment. Featuring a glossy finish and iridescent color shift, this heat transfer material is made to be seen.

- Premium apparel with only a heat press
- Trendy iridescent special effect
- High-gloss finish with woven fabric feel

## CREATE TRENDY, IN-DEMAND APPAREL

CAD-CUT® Chroma-TWILL™ combines the texture and feel of traditional twill with a high-gloss, shimmering color shift. Available in a variety of vibrant color options including neon, this heat transfer material is perfect for creating trendy designs customers will love.

## SPECIALTY LOOK WITH ONLY A HEAT PRESS

Forget the threads and needles! CAD-CUT® Chroma-TWILL™ permanently heat applies to cotton and polyester fabric for a specialty finish. It can also be layered on top of itself to create multi-color looks with even more special effect shine.
